

Review of the 2014 CAREC DEfR

Ms. Cleo Kawawaki
Director, CWEN, ADB

Why DEfR ?

- **Performance Monitoring**
 - **Focused Action**
- **Transparency**
 - **Credibility**
- **Publicity**
 - **Competitiveness**

Energy Sector in DEfR

1. Energy Sector Outcome

Statement: The impact of uneven distribution of energy resources among CAREC countries is overcome, and existing energy interrelationships are optimized

Indicator:

- *Volume of interregional energy trade in gigawatt-hours (GWh)*

Energy Sector in DEfR

2. Energy Sector Outputs

Statement: Targeted levels for domestic and cross-border energy projects reached by 2020

Indicators:

- *installed or upgraded transmission lines (km);*
- *increased energy generation capacity (megawatt [MW]);*
- *rehabilitated generation capacity (MW);*
- *installed new substations (megavoltampere [MVA]); and*
- *upgraded substations (MVA).*

Statement: Central Asia–South Asia energy corridor developed

Indicator:

- *Completion of at least one major regional interconnection project by 2015.*

Energy Sector in DEfR

3. Updated Dec. 2014 Figures for 2013 Baseline

Indicator	2013 Baseline
Installed or upgraded transmission lines (km)	612
Increased energy-generation capacity (MW)	300
Rehabilitated generation capacity (MW)	0
Installed new substations (MVA)	250
Upgraded substations (MVA)	400

MVA = megavolt-ampere, MW = megawatt.

Energy Sector in DEfR

5. Updates on Energy Sector Interventions

Statement: Develop programs to enhance regional energy trade and cooperation

At least two multiyear programs completed by 2015

Statement: Undertake analytical work on the linkages between energy and water resources

At least two studies published by 2015;

Statement: Complete the financial road map and mobilize funds

A road map endorsed by the ESCC by 2015, lists of medium- and long-term projects endorsed by CAREC countries with proposed financing modalities by 2015, and new investments amounting to a yet unspecified total mobilized by 2020;

Statement: Strengthen institutional capacity of CAREC- member countries and share knowledge with them

At least two training or field-visit sessions conducted annually, each with more than 30 participants; and studies on institutional capacity development published by the ESCC by 2020.
