

Customs Committee of the Republic of Uzbekistan

How Uzbekistan Manages the E-Commerce Surge

Customs Control of e-Commerce Shipments

Ulan Bator, Mongolia

Main Concepts and De-Minimis Value

POSTAL SHIPMENTS

Written correspondence, printed publications and other items in addressed packaging

“UzPost” JSC (National postal operator)

Per-shipment threshold: \$100

COURIER SHIPMENTS

Hand-to-hand delivery within short timeframes – postcards, letters, parcels, printed matter

101 courier organizations (as of 2025)

Monthly cumulative threshold: \$200

Legal entities: \$100 per shipment (both types)

KEY LEGAL FRAMEWORK

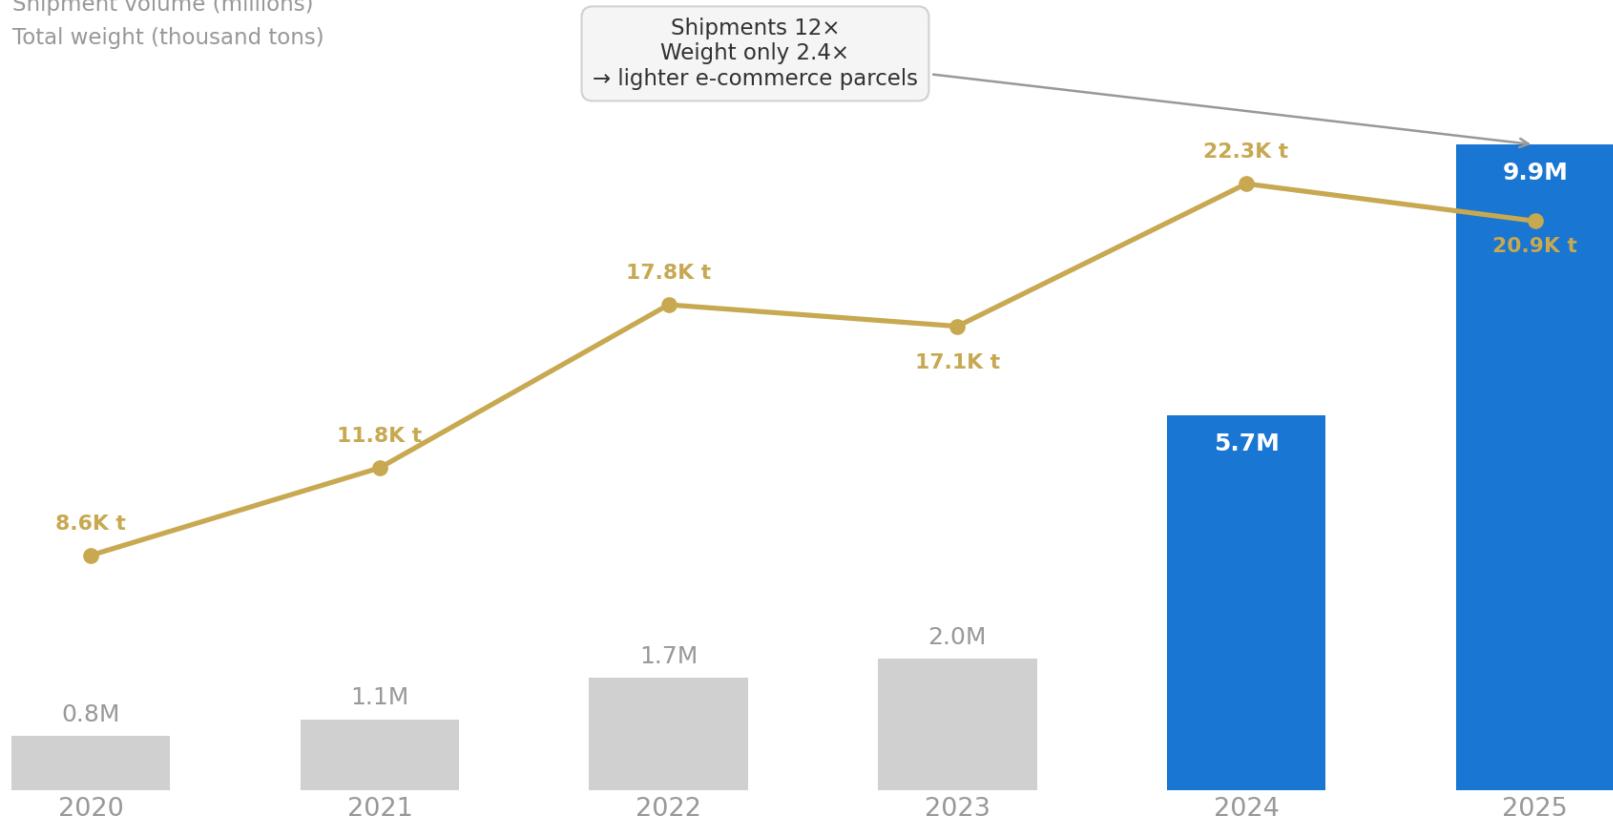

Universal Postal Convention • Customs Code (Chapter 24) • Presidential Decree No. 3873

Cabinet of Ministers Resolutions No. 700 & 244 • Ministry of Justice Instruction No. 2219

Volume surged 12× but total weight only doubled

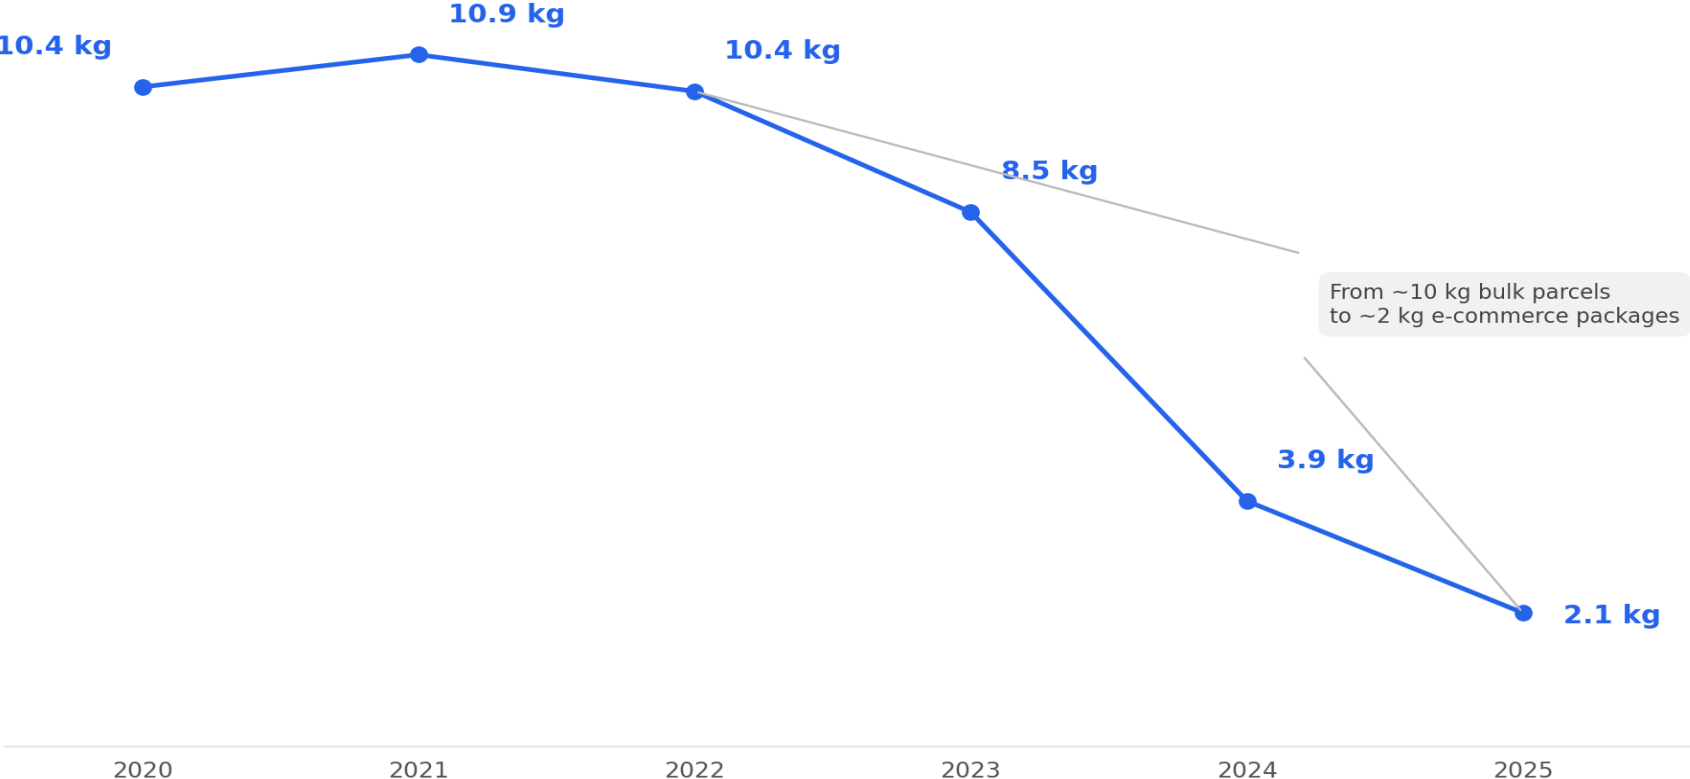

International courier shipments (millions) vs. total weight (thousand tons), 2020–2025

- Shipment volume (millions)
- Total weight (thousand tons)

Average parcel weight dropped 80% — a clear e-commerce shift

Average weight per shipment, kilograms

Customs Clearance Procedures and Payments

Procedure

1 Simplified Procedure

Goods valued up to 30 BCA

Parcel
Declaration

2 Simplified Procedure

Commercial goods or value exceeding 30 BCA

Customs
Cargo Declaration

Payments

1 Unified Customs Payment

Personal goods exceeding duty-free threshold

30% of customs value
min. \$3/kg

2 Customs Tariff Schedule

Commercial goods

Tariff Schedule
Rates

Customs Clearance Process Flow

01 Preliminary Information

Electronic data submitted at least 2 hours before arrival

02 Shipment Confirmation

Recipient confirms or cancels within 10 days

03 Customs Screening

Barcode scan, X-ray, electronic data matching

STEP 04: RISK CHANNEL ASSIGNMENT

GREEN - 90%

No suspicion – cleared
*Future: auto-clearance
(Resolution 700)*

YELLOW - 9%

Additional document verification required before clearance

RED - 1%

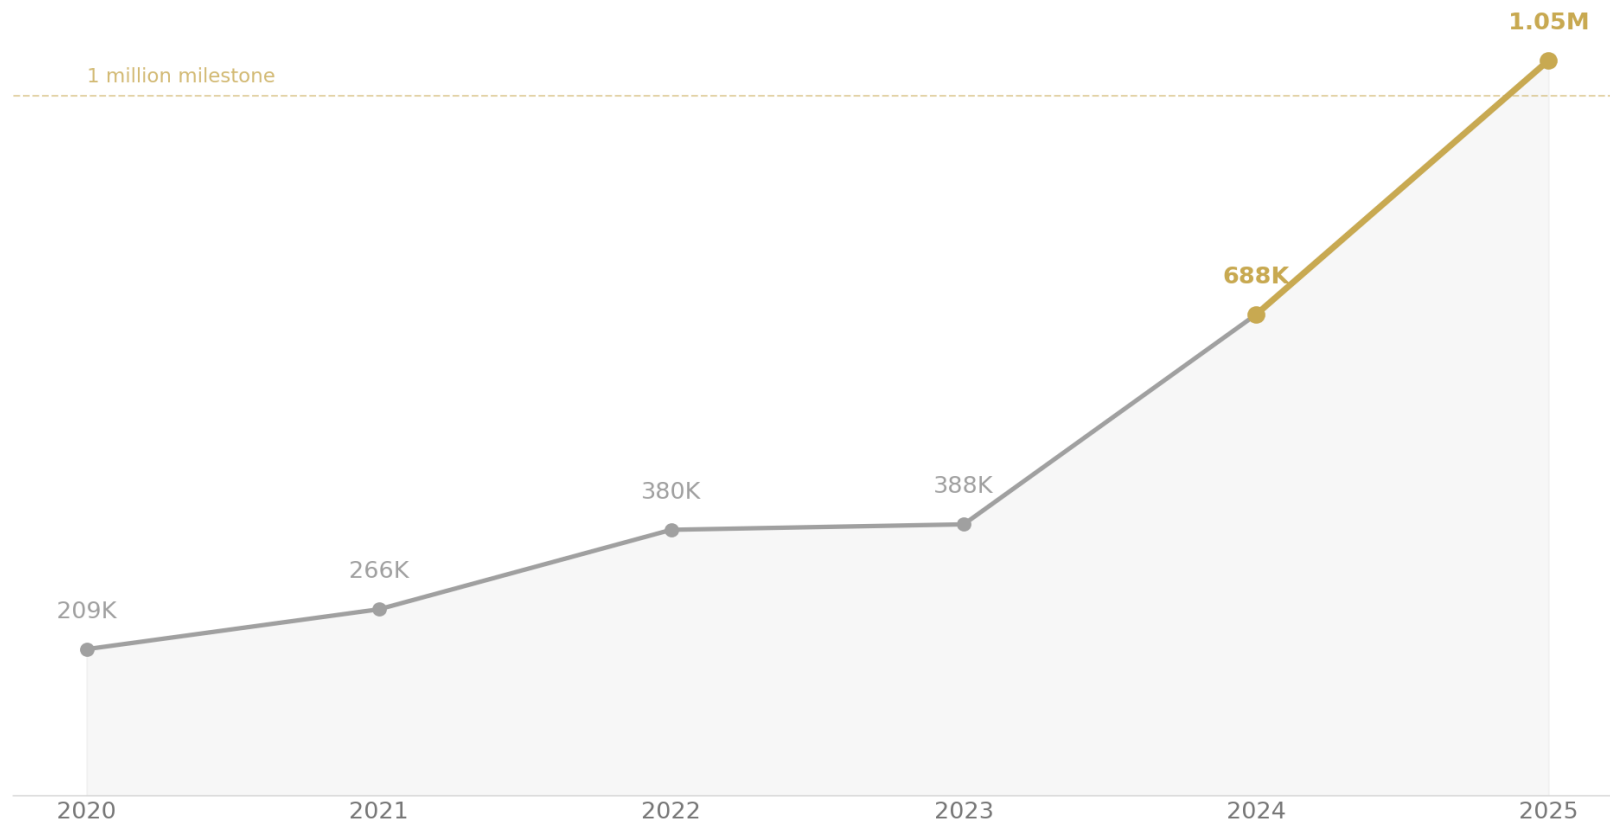

Full physical inspection
(up to 5 min)

STEP 05: CUSTOMS CLEARANCE → Based on purpose and value:
Unified Payment / Receipt Order / Cargo Declaration

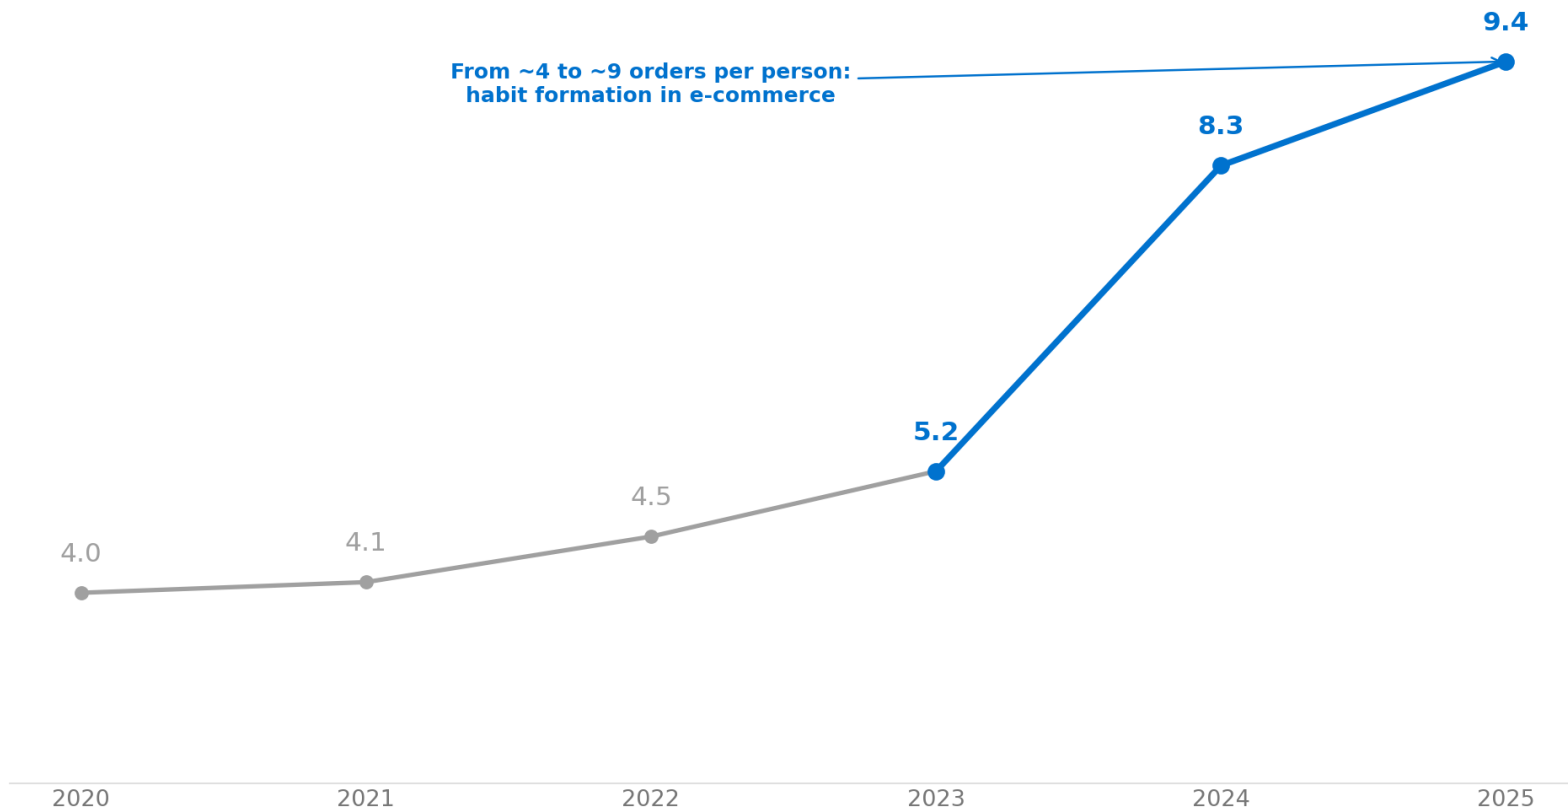

Over 1 million citizens now receive international parcels

Number of unique recipients of courier shipments

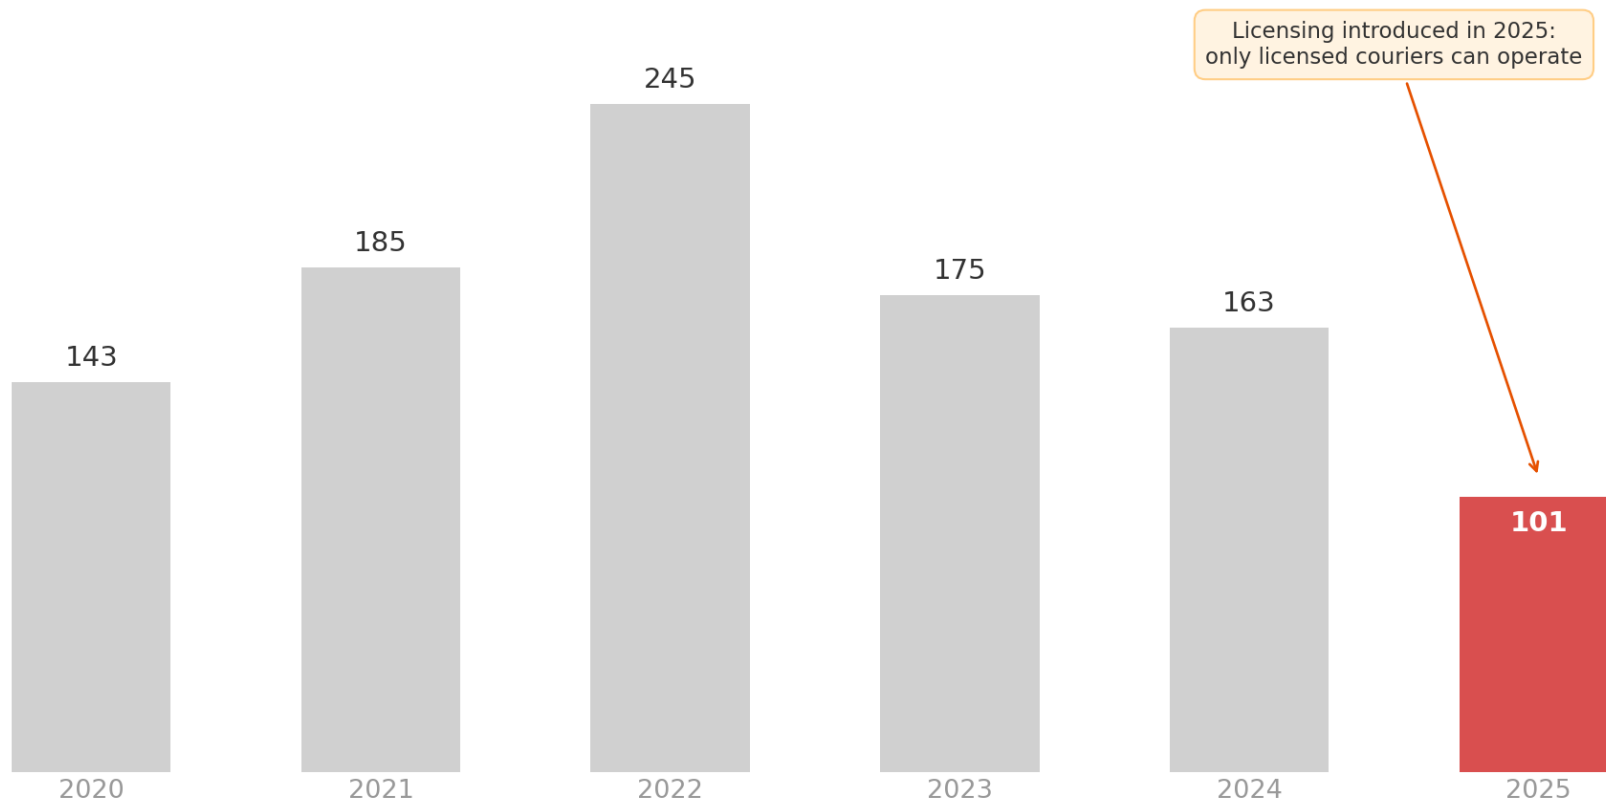

Uzbek consumers now order 2.4× more frequently than in 2020

Average number of shipments per recipient citizen

Market consolidation: 59% fewer couriers handle 12x the volume

Number of registered courier organizations

Risk Management System (RMS)

Deployed 2025 • Operational for all courier and postal shipments

9.9M

shipments processed
through RMS since launch

1 – 2 years

of historical data used
for risk criteria

73

violations detected
in 2026

RISK CHANNEL DISTRIBUTION

Green 90% – Low risk

Yellow 9%

Red 1%

MOST COMMON DETECTIONS

- Exceeding duty-free limits
- Prohibited goods

AUTO-CLEARANCE: Green channel auto-clearance regulation adopted – equipment procurement pending

UNDERVALUATION DETECTION: Statistical module deployed March 2026 – flags anomalous declared values

Prohibited Goods and Restricted Goods

Items prohibited / restricted from import / export via international shipments

Narcotics and psychotropic substances, undeclared precious metals (platinum, gold, silver)

Firearms, ammunition, and cold weapons, drones (unmanned aerial vehicles)

Radioactive, explosive, toxic, and hazardous materials, seeds, planting material, and live animals

Counterfeit and pirated goods, slot machines

Banknotes and foreign currency, laser emitters

Ozone-depleting substances

Cultural property

Know-how and inventions

High-frequency devices

Religious literature

“E-commerce” system

Results & Road Ahead

12×

volume growth in 5 years

2-tier

Clearance and payment system

9.9M

shipments screened by RMS

90%

auto-clearance target (green corridor)

Looking ahead: Auto-clearance implementation • Continued RMS refinement • Data-driven policy evolution

November 2025: Presidential decree ordering reassessment of all duty-free norms — commitment to continuous reform

Thank You
