

Session 10

Brainstorming: Contribution of CPMM Partners to Promoting Trade Facilitation in CAREC

Zulfia Karimova

Principal Regional Cooperation Specialist

CAREC Corridor Performance Measurement and Monitoring Methodology Workshop

29-30 October 2024, Tashkent, Uzbekistan

Proposed ADB Technical Assistance

- **Primary outcome:** CAREC countries' adoption of actions to expand, digitalize, and ensure greening of trade.
- Under trade facilitation component, technical assistance will include activities:
 - Technical studies on smart border crossing points, green logistics, and paperless trade for higher AEO compliance
 - Scoping studies on joint customs control and joint border crossing points
 - **Continuous implementation of CAREC Corridor Performance Measurement and Monitoring (CPMM) project**
 - Live implementation of the CAREC Advanced Transit System and Information Common Exchange (next phase)
 - **Strengthened collaboration with private sector** and trading community

Questions to CPMM partners

1. The new technical assistance project will involve the **private sector in dialogues with customs authorities**. Does your association have advocacies and suggestions you wish to present to your local customs and border agencies?
2. What kind of trade, transport, or trade facilitation policies does your association wish to be implemented in your countries?
3. How do you propose ADB and CI to assist private sector in promoting trade facilitation policies with the relevant government authorities?

Thank you!
